

# Healthy Employees Through Technology

Nutriinfo.com provides simple online weight and health management solutions

Nutriinfo is an interactive online weight and health management system created with the latest technology by experts.

**Create Wellness Anytime Through Technology & Empower your employees to improve their health.**

## Corporate Benefits:

**Prevention:** Empower your employees by providing the tools to take proactive and preventive actions to reduce their risk of a serious illness or disease.

**Increased Productivity:** Healthy employees will miss less work and be more productive while at work.

**Turn-key Program:** No set up required; we provide a ready- to-use system that can be customized to meet your worksite objectives.

**Reduction in health care cost:** Helping your employees achieve a healthy lifestyle will reduce current and future healthcare expenses.

**Convenience:** Through the use of our solutions, you can help your employees manage their weight, health and fitness any time, anywhere.

**Cost:** The program is an easy, affordable way to positively impact the overall health and well-being of your employees.

**Support:** We'll provide promotional emails, brochures, and posters.

## Employee Benefits:

**Self-Monitoring Tools:** People can keep track of weight and health status.

**Advice:** Our team of nutrition and fitness experts will answer questions submitted by your employees. Through this interactive process, we'll empower your employees to optimize their weight loss efforts, improve their level of physical fitness, and achieve a healthy lifestyle.

**Support:** Our community section provides valuable resources for information and inspiration, engaging your employees.

**Empower your employees to attain a healthy lifestyle and improve their health with the tools they can access anytime, anywhere!**
